## AI Assistant

What's the status of our software licenses for Q3 2024?  
2024-07-26 10:00 AM

For Q3 2024, 85% of your software licenses are compliant. There are 3 licenses expiring within the next 30 days and 1 non-compliant license due to overuse. Would you like a detailed report on these?  
2024-07-26 10:01 AM

Tell me more about the non-compliant license. Which one is it and what's the issue?  
2024-07-26 10:03 AM

The non-compliant license is 'Adobe Creative Cloud Enterprise' (License ID: ACC-2023-XYZ). It is currently being used by 125 users, exceeding its 100-user limit. This resulted in a 25% over-utilization. Recommended action: purchase additional seats or reallocate existing licenses.  
2024-07-26 10:04 AM

Can you forecast the cost impact if we continue this overuse for the next 6 months?  
2024-07-26 10:07 AM

Continuing the overuse of the 'Adobe Creative Cloud Enterprise' license for the next 6 months is projected to incur an additional cost of approximately \$1,200 in penalties and prorated license fees. This forecast is based on current usage trends and vendor terms. Optimizing usage or procuring additional licenses proactively could mitigate this cost.  
2024-07-26 10:08 AM
